This move was made not only through lack of raw materials, but also because of lack of funds to pay the employees. 2. The Sofia slaughter house has also recently reduced its employees by 30 percent in order to save on salaries. 3. The textile industry in Gabrovo and Sliven is now operating only on paper & The factories, open only to keep the machinery in use, are producing a purely nominal amount of cloth. This condition is caused entirely by the lack of wool and cotton which have not been delivered by the USSR. The Varna shipyards, which last year produced six concrete vessels for the USSR and this year three, have recently been closed.
